Dear Paul,

29 July 2016

Letter of Acknowledgement for Membership

On behalf of SABCOHA I would like to convey our appreciation for your Oxygen for Life's fee contribution towards the 2016/17 financial year.

We value your ongoing support and for demonstrating leadership in recognizing the fact that the Private Sector has a cooperative role to play in support of the National Health Agenda. The country's quadruple burden of disease cannot be addressed by Government alone and a multi-faceted approach is required to ensure attainment of the 90-90-90 targets for 2030, as set out in the National Development Plan and Sustainable Development Goals. The South African National AIDS Council is in the process of drawing up the next National Strategic Plan for HIV/AIDS, TB and STI's 2017-2022 and SABCOHA was asked to nominate a Private Sector representative for the Steering Committee.

We are delighted to advise that SABCOHA has secured a new round of funding for testing and training of vulnerable communities, young women and girls in particular, and are in the process of soliciting co-funding from the private sector in order to offer full health screening.

Should you be interested to make a contribution, we would love to include you in the programme.

Negotiations for the roll-out of our next advocacy campaigns are progressing well. We invite our members to engage with us. Through unity and consolidation our impact will be that much greater.

Yours sincerely,

A handwritten signature in cursive script that reads "Preller".
