

Your body's immune system is amazing! It defends you against millions of bacteria, microbes, , toxins and parasites that try to invade your body. But we all take our immune systems for granted, until something goes wrong.

If your immune system is healthy, it will try to protect you in three different ways: prevent bacteria and viruses from entering your body OR eliminate them before they can reproduce OR try to eliminate the problems caused. A weak immune system will struggle to help you feel better, and you will take longer to recover. It makes sense that you give your immune system all the help it needs.

## Sick of being sick?

We all know good nutrition plays a vital role in maintaining a healthy immune system. But, did you know that a lack of oxygen in your body can lead to a weakened immune system and create a breeding ground for harmful bacteria, viruses and pathogens?

It's a fact that we don't get enough oxygen and we are functioning less and less effectively. We need oxygen for life, health and energy. The greater oxygen levels in our bodies, the more resistant we become to viruses and harmful bacteria.

## Get more oxygen!

Cellfood<sup>®</sup> is an award-winning oxygen mineral nutritional supplement that provides cascades of life-giving oxygen directly to the cells in your body. What's more, Cellfood<sup>®</sup> provides the nutrients vital in the maintenance of optimum immune function and helps the cells properly absorb and assimilate the nutrients you take in.

## Feel new levels of vitality, energy, endurance, and wellbeing!

The oxygen, combined with hydrogen and 129 vital nutrients (78 minerals, 34 enzymes, 17 amino acids and electrolytes) in Cellfood<sup>®</sup> assist in cleansing, balancing and building the cells and tissues throughout the day. The body is then able

to burn up and clean harmful toxins and waste from the body, restore cellular damage and strengthen the immune system.

Use Cellfood<sup>®</sup> today - the original, extraordinary oxygen and nutrient supplement.

## MORE OXYGEN. MORE ENERGY. BETTER HEALTH.
